PROSPECTUS

ALFEEN PUBLIC SCHOOL is a school with a difference, where the entire school community proudly reflects the shared vision, commitment and energy necessary to ensure the educational success of every student. Hence we provide our students every opportunity to discover the real treasures within every student.

VISION

Alfeen Public School would be an abode of excellence providing an environment for every student to reach his/her full potential in academic, creative, personal, physical, moral and spiritual spheres to lead a successful and productive life contributing to the global community.

MISSION

Celebrate the difference of every child by caring for and nurturing his/her young minds and also fostering positive relationship.

Follow a personalized curriculum to equip the student with academic, social, ethical and cultural skills to be contributors to the global community.

Provide communities to ensure that every student develops and displays leadership skills like self-reliance, critical thinking, reasoning, appreciation, respect, humility and team work.

Create an environment of excellence and competence for every individual.

THE CURRICULUM

LITTLE ALFEEN

Alfeen play class and kindergarten , a special cheerful doorway that leads the child into nature's lap of green grass below, blue skies above, the bees and the butterflies around and then foray into the world of 'doing' and 'learning' .

CBSE Curriculum- CBSE is one of India's premier educational body offering qualifications in nearly 10,000 schools in over 21 countries around the world. The examinations are held yearly/biyearly

SCHOOLING LEVELS

APS is a co-educational, residential school with an enrollment of more than 700 students.

We offer education to students from Play class to class XII in CBSE.

All classes have 25 students per class and the staff-student ratio is 1: 12.

PRE-PRIMARY SCHOOL

Our kindergarten program is designed to help children acquire foundational skills and form positive attitudes to learning as they begin to develop their goals for lifelong learning.

We implement a program that is thoughtfully planned, challenging, integrated and developmentally appropriate. Young children learn best through play and activities and our monthly theme based activities and field trips make learning a pleasurable experience.

PRIMARY SCHOOL

We believe that young children are powerful learners who bring their own ideas and interpretations of their experiences to their learning. With their natural curiosity and developing communication skills, they are eager to inquire about the world around them. At APS children join a community of learners in which each will have a place to belong and a way to contribute in his/her own individual way. Each child has a unique pattern of growth and development. Our educators are responsive to individual's differences in ability and interest.

A range of levels of development, learning style and intelligence among children are expected and are used to design experiences for learning.

SECONDARY SCHOOL

The program of learning in these years, encourage our students to become internationally minded, responsible citizens of the world by helping them in their emotional and social development.

As students at this stage often become deeply engaged with special interests and pursuits, they will have new opportunities to share their growing skills and understanding. Included in this understanding is the facility to experience and grow in leadership. A strong emphasis is placed on developing an understanding of strengths, areas of growth and building confidence.

At Alfeen we offer a safe, positive learning environment with an infusion of values and a strong foundation for learning, personal growth and accumulation of skills.

SENIOR SECONDARY SCHOOL

The APS senior secondary program addresses each student's varied levels of emotional, physical and intellectual development. Subjects are integrated to create authentic experiences for students while providing rigorous training for future success. Our curriculum enables students to establish links between the topics themselves, and the "real world". Years of enriching experiences of conceptual development and deepening life skills achievement blossom in various engagements that go beyond the boundaries of school. This is a time of self-exploration, self-discovery, and understanding of who I am and who I can be.

FACILITIES

LIBRARY

The library is unrivaled with more than 4000 books, latest periodicals and journals. A comprehensive reading program is designed for all classes and students are marked on book reading.

LABORATORIES

An elaborate and well-designed Physics, Chemistry and Biology labs, cater to the enhanced scientific learning approach for students from primary to senior classes

COMPUTER LABS

Three computer labs with the latest software and hardware are used effectively for integrated approach to ICT in the curriculum and all subjects.

PARAPHERNALIA

APS has ventilated, spacious and aesthetically designed classrooms, staff rooms and home theatre.

All class rooms are of 68 sq. m with comfortable seating arrangement

From educational films and slideshows to live demonstrations and presentations, the vastness of the entire universe

can be experienced by the students.

Green team

A broad education cannot be confined within the walls of a classroom.

Our excellence in academic study is complemented by an extensive range of innovative sessions and co-curricular activities in order to involve students and channelize their energy and enterprise.

School and education is a preparation for real life. With the view to reinforce student's formal learning through exposure to the world we introduced the Enhancement programme designed to teach students life skills
